

REMARKS

In a Notice of Drawing Inconsistency With Specification dated September 8, 2004, the U.S. Patent and Trademark Office objected to this application because FIG. 13I is listed in the Brief Description of the Drawings in the specification but not contained in the Drawings and because FIG. 15 is contained in the Drawings but not listed in the Brief Description of the Drawings. Accordingly, Applicants amend the Brief Description of the Drawings to eliminate reference to FIGS. 13I and 12I, which are not included in the Drawings. Applicants also amend the Brief Description of the Drawings and the relevant paragraph of the specification to appropriately refer to FIG. 15. Applicants submit that these amendments do not add any new matter and are supported at least by the Drawings and the specification at page 47, line 18, through page 48, line 5. As this amendment eliminates the noted inconsistencies, Applicants respectfully request that this application issue.
